Dear individual Donors, Dear Members of the Press, Dear Guests,

Welcome aboard "Voyage", or "Journey" in French! "Voyage" is the first around-the-world Princely Ball without leaving Singapore. Because the earth is so full of wonders we all love to travel on amazing journeys around the world and Because the world is amazingly beautiful and rich, we must preserve it!

This journey will be a very special one, thanks to the generous support of our sponsors and donors, it will be a journey for the future: as all the proceeds for the evening will be dedicated to ecology, protection of the environment, and endangered species... Supporting the worldwide efforts of HSH Prince Albert II Foundation and its urgent and concrete action in response to three major environmental issues: climate change, biodiversity and water.

We will fly over the parts of the world where the Foundation concentrates its efforts on priority geographical areas: the Polar Zone - Arctic and Antarctica, the Mediterranean region, Africa and Asia. We will fly tonight over the tropical rainforest which houses 75% of the world's biodiversity.

This amazing decor was made thanks to 1800 square meters of wall projections and a tailor-made projection mapping show. We hope that you will be moved by the beauty of this world and that you will remember this evening for a long time, as a strong pledge to act concretely for the environment.

Now, please secure your seat belt for take off. The full cabin crew wishes you a very pleasant flight with us!

Let's take a journey around the world
for the future of the world!

PRINCE ALBERT II OF MONACO
FOUNDATION

“ BECAUSE THE FUTURE OF MAN IS AT STAKE ”

I decided to set up a Foundation whose purpose is to protect the environment and to encourage sustainable development (...) By definition, this is a common global challenge that requires urgent and concrete action in response to three major environmental issues: climate change, biodiversity and water.

Prince Albert II of Monaco

The Prince Albert II of Monaco Foundation promotes sustainable and equitable management of natural resources and places the individual at the centre of its projects. Its committed international team collaborates with networks of researchers and companies in order to support innovative and ethical solutions in three main areas: climate change, biodiversity and water. The Foundation concentrates its efforts in priority geographical zones: the polar zones (Arctic and Antarctica), the Mediterranean region, Africa and Asia. The tropical rainforests house at least 75% of the world's biodiversity. The Foundation and the association MC2D have decided, for 2010 – the Year of Biodiversity – to focus on the essential protection of these ecosystems. One of the concrete catalysts for change resides in the production, marketing and utilisation of certified wood under the FSC (Forest Stewardship Council) label.

PRINCE ALBERT II OF MONACO FOUNDATION

H.E. Bernard Fautrier
Vice-President, CEO of the Foundation, explains :

"The effects of global warming, pollution, the extinction of species and the threats to the indigenous people are considerable, especially in the polar regions. On the other hand, the least developed countries, particularly exposed to major environmental issues, are affected by desertification, water scarcity and deforestation. The Prince Albert II of Monaco Foundation devotes part of its efforts to these countries not only to find a solution to these scourges, but also to contribute towards their action in support of sustainable development."

Jacky Deromedi
Branch President – The Prince Albert II of Monaco Foundation & Honorary Consul of the Principality of Monaco in Singapore and in Dili.

"In Singapore we are surrounded by countries who need immediate help. This is why His Serene Highness Prince Albert II of Monaco decided to establish the 8th Branch of His Foundation in Singapore. Being closer to these countries we understand their urgent needs and we are able to follow projects."

I am personally involved in Timor Leste where we are educating the population by providing specialists to teach them how they can bring clean water to villages, to understand that they have to work with us for reforestation, plantations, construction of fish ponds... In Timor Leste, The Foundation Prince Albert II of Monaco has also built two maternity clinics."

The Océan set of jewelry

THE SOARING PALACE

New La Première Suite: discover absolute comfort and five-star service throughout your journey.

In 2011, Van Cleef & Arpels had the rare honor of being chosen by a royal bride to create a set of jewelry. The Océan necklace is a tribute to the grace and elegance of Her Royal Serene Princess Charlene of Monaco, who gave the piece its name. This necklace, a token of love offered by the Prince to his Princess, can be transformed into a tiara.

Since 1956, Van Cleef and Arpels has held the title of "Official Supplier to the Principality". Such a privilege requires the highest standards and a place at the forefront of the art of jewelry-making. The unrivaled savoir-faire of the Mains d'Or, the Maison's master jewelers, reproduces the grace of life itself.

*What present do you give
a Prince who has everything,
for his birthday?*

Francesco M. Bongiovanni

Francesco M. Bongiovanni will be directing tonight the Singapore Symphony Orchestra (SSO) ensemble playing "The Prince", an overture which Francesco composed as a tribute to HSH Prince Albert II of Monaco, a gift for a very special anniversary.

Francesco is a Monaco-based businessman who lived 15 years in Asia, holds an MBA from Harvard and an engineering doctorate. He is passionate about music since his childhood: composes and plays classical & jazz music when he is not writing books on economics or lecturing around the world in finance (including at the Lee Kuan Yew School of Public Policy in Singapore). His passion for humanitarian and environmental causes led him to undertake projects in Asia, notably in Indonesia, as head of the Monaco-Asia Society, and to cooperate with the Prince Albert II Foundation.

Francesco will also open tonight's gala ball by performing "You" with Singapore's Thomson Jazz big band, a song which he also composed.

Combining the Sanskrit word for "peace" with kora or "circular pilgrimage" in Dzongkha, the Bhutanese language, Amankora is a series of lodges across the central and western valleys of Bhutan. The sole surviving Himalayan Buddhist Kingdom, Bhutan is located between the Tibetan Plateau and India, making it one of the most remote and pristine environments on earth. Descending from 7,000-metre high peaks in the north to the low-lying plains of the south, Bhutan's rivers have forged deep valleys separated by high mountain passes.

Historically isolated, each valley's scenic beauty and topography affords visitors an opportunity for unique journeys of discovery between them. To best experience all that Bhutan has to offer, Amankora can tailor journeys that include a combination of its lodges located in the valleys of Paro, Thimphu, Punakha, Gangtey and Bumthang.
